DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is still not clear how the rubber volume is required to be calculated. Applicant argues that the disclosure at the top of page 7 of the specification means that the sum of $T \times \delta$ over 50 mm width is multiplied by a "depth size" of 50 mm to obtain the claimed volume, however this is inconsistent with the examples in Table 1 of the specification: see for example the data for Example 1, where $T_i = 1.00$ mm, $D_i = (1/1.64) \times T_i = 0.61$ mm, $\delta_i = (1/N_i) - D_i = 1.25$ mm - 0.61 mm = 0.64 mm, so $T_i \times \delta_i = 0.64$ mm²; since there are 40 cords per 50 mm the sum of this area over 50 mm is $0.64 \times 40 = 32$ mm², thus if the "depth size" were 50 mm as applicant argues the volume would be $32 \times 50 = 1600$ mm³ rather than the 655 mm³ recited in Table 1. Correction is required.

Allowable Subject Matter

3. Claims 4-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Again, as best as can be determined from the indefinite claim language noted above, the prior art of record fails to disclose or suggest applicant's pneumatic bias tire having a rubber volume of 500-1350 mm³ in the claimed environment.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
